INDEX OF TABLES AND FIGURES

Tables

HUNGARIAN LABOUR MARKET
Table 1: The number of employees . 22
Table 2: The number of employed and the potential labour force ........... 29
Table 3: Net and real earnings calculated with the family tax relief ....... 37

IN FOCUS
Table 1.2.1: Typical types of arguments concerning the issue of “labour shortage” in Hungarian public discourse, 2015–2017 .............. 58
Table 1.4.1: Extract from the labour market information matrix of the National Labour Office ........... 75
Table K.1.5.1: The labour market history of public works participants in the Labour Force Survey of CSO in the one year as well as one and a half years following the first data collection ............................................. 78
Table 2.1.1: Demographic replacement between 2001–2030, by educational attainment and gender (thousand persons) ................. 88
Table 2.1.2: Demographic replacement between 2001–2030, by educational attainment and gender in proportion to the active age population of 2011 (percentage) ........... 88
Table 2.2.1: The number of entrants to the labour market from education and from the labour market to retirement and/or incapacity according to estimates based on the Labour Force Survey of the CSO, 2006–2015 (thousand persons) ... 92
Table 2.3.1: The marginal effect of individual factors on employment abroad ........................................... 99
Table 2.3.2: The marginal effect of individual factors on the return to the Hungarian labour market .... 100
Table A2.3.1: Transcoding ISCO–88 occupational groups and dividing them into groups ........................................... 104
Table A2.3.2: Average exit, return and net labour migration rate of workers aged 18 years or more and below the retirement age, according to individual characteristics, 2006–2010 and 2011–2016 ....... 105
Table A2.3.3: The fit indices of the model ........................................... 108
Table 3.1.1: “Has your company faced any difficulties resulting from labour shortage in the previous 12 months?” October 2016, logit estimation ........................................... 111
Table 3.1.2: The estimation of wage increase intentions, October 2016, logit estimation ........................................... 113
Table 3.2.1: The relationship of shortage indicators to key enterprise characteristics in 2016, logit marginal effects and fractional regression coefficients ........................................... 117
Table 3.3.1: The average of shortage indicators and the number of cases in the sample analysed in this chapter ........................................... 120
Table 3.3.2: The impact of the enterprise-level residual wage on the occurrence and the value of shortage indicators, 2015, probit marginal effects and linear regression coefficients ........................................... 120
Table 3.3.3: The effect of the 2015 shortage indicators on the 2016 planned and 2015–2016 actual corporate average wage increase – robust regression coefficients .... 123
Table 4.1.1: The occupational composition of graduates from VET and VSS in 2011–2016, percentage ... 133
Table 4.1.2: The wage advantage of VSS graduates in various occupational groups compared to those with a lower secondary qualification at most (0–8 grades) in 2011–2016 (percentage) ........................................... 134
Table 4.1.3: The proportions of vocational school and upper-secondary vocational school graduates and the wage advantage of the latter over the former in 2016 ........................................... 135
Table 4.1.4: Changes in ALL test scores according to age among manual workers who completed 11 or 12 grades ........................................... 137
Table 4.1.5: The impact of the average score achieved in ALL on monthly wages among Hungarian workers who completed 9–12 grades ....... 138
Table 4.2.1: Career plans of the 15 year olds in Hungary ................. 143
Table 5.1.1: Non-cognitive skills belonging to the Big Five groups of skills ........................................... 152
Table 5.2.1: The decisive factors of labour mobility – probit models with two outcomes ............................. 163
Table 5.2.2: Determining factors of the direction of labour mobility .... 164
Table A5.2.1: Aggregated occupational groups ........................................... 166
Table 5.3.1: The participation of the working age population with a maximum of ten completed grades and not in education in various forms of adult learning – ALL, 2008 ...... 168
Table 5.4.1: Selection into training, by the year of training entry ....... 174
Table 5.4.2: Selection into training, by the length of trainings .......... 175
Table 5.4.3: The effect of training on the number of days spent in employment ........................................... 179
Table 5.4.4: The effect of training on the number of days spent in employment, by educational level and the length of training .......... 180

POLICY TOOLS
Table A1: Expenditures and revenues of the employment policy section of the national budget, 2011–2017 (mHUF) ........................................... 194

STATISTICAL DATA
Table 1.1: Basic economic indicators ........................................... 199
Table 2.1.1: Population ........................................... 201
Table 2.2: Population by age groups, in thousands ........................................... 201
Table 2.3: Male population by age groups, in thousands ................. 203
Table 2.4: Female population by age groups, in thousands ................. 203
Table 3.1: Labour force participation of the population over 14 years, in thousands ........................................... 204
Table 3.2: Labour force participation of the population over 14 years, males, in thousands ........................................... 205
Table 3.3: Labour force participation of the population over 14 years, females, in thousands ........................................... 206
Table 3.4: Labour force participation of the population over 14 years, per cent ........................................... 207
Table 3.5: Labour force participation of the population over 14 years, males, per cent ........................................... 208
Table 3.6: Labour force participation of the population over 14 years, females, per cent ........................................... 209
Table 4.13: Employment rate of employees of the competitive sector, males, per cent .................. 222
Table 4.14: Employment rate of employees of the competitive sector, females, per cent .................. 219
Table 4.15: Employment rate of population aged 15–64 by level of education, males, per cent .......... 220
Table 4.16: Employment rate of population aged 15–64 by level of education, females, per cent ........ 221
Table 5.1: Unemployment rate by gender and share of long term unemployed, per cent .................. 222
Table 5.2: Unemployment rate by level of education, males, per cent ................................ 223
Table 5.3: Composition of the unemployed by level of education, males, per cent .......................... 223
Table 5.4: Unemployment rate by level of education, females ................................................. 224
Table 5.5: Composition of the unemployed by level of education, females, per cent .................... 224
Table 5.6: The number of unemployed by duration of job search ........................................... 226
Table 5.7: Registered unemployed and LFS unemployment ..................................................... 228
Table 5.8: Composition of the registered unemployed by educational attainment, yearly averages .... 229
Table 5.9: The distribution of registered unemployed school-leavers by educational attainment, yearly averages, per cent .................................................. 229
Table 5.10: Registered unemployed by economic activity as observed in the LFS, per cent .................. 229
Table 5.11: Monthly entrants to the unemployment register, monthly averages, in thousands ........... 230
Table 5.12: Selected time series of registered unemployment, monthly averages ............................ 231
Table 5.13: The number of registered unemployed who became employed on subsidised and non-subsidised employment .......................................................... 232
Table 5.14: Benefit recipients and participation in active labour market programmes ...................... 233
Table 5.15: The ratio of those who are employed among the former participants of ALMPs, per cent ....... 234
Table 5.16: Distribution of registered unemployed, unemployment benefit recipient and unemployment assistance recipients by educational attainment ................................. 235
Table 5.17: Outflow from the Register of Beneficiaries .......................................................... 236
Table 5.18: The distribution of the total number of labour market training participants .................... 236
Table 5.19: Employment ratio of participants ALMPs by gender, age groups and educational attainment for the programmes finished in 2016, per cent ............................... 237
Table 5.20: Distribution of the average annual number of those with no employment status who participate in training categorised by the type of training, percentage .......................... 237
Table 5.21: The distribution of those entering training programmes by age groups and educational level 238
Table 6.1: Annual changes of gross and real earnings ............................................................... 239
Table 6.2: Gross earnings ratios in the economy ........................................................................ 240
Table 6.3: Regression-adjusted earnings differentials ................................................................. 242
Table 6.4: Percentage of low paid workers by gender, age groups, level of education and industries .... 243
Table 7.1: Graduates in full-time education ................................................................................. 246
Table 7.2: Pupils/students entering the school system by level of education, full-time education ......... 247
Table 7.3: Students in full-time education .................................................................................... 248
Table 7.4: Students in part-time education .................................................................................... 248
Table 7.5: Number of applicants for full-time high school courses ............................... 249
Table 8.1: The number of vacancies reported to the local offices of the NFSZ .............................. 250
Table 8.2: The number of vacancies reported to the local offices of the NFSZ, by level of education .... 251
Table 8.3: The number of vacancies ......................................................................................... 251
Table 8.4: Firms intending to increase/decrease their staff ......................................................... 252
Table 9.1: Regional inequalities: Employment rate ................................................................. 253
Table 9.2: Regional inequalities: LFS-based unemployment rate ............................................... 254
Table 9.3: Regional differences: The share of registered unemployed relative to the economically active population, per cent ......................................................... 255
Table 9.4: Annual average registered unemployment rate by counties .................................. 256
Table 9.5: Regional inequalities: Gross monthly earnings ....................................................... 257
Table 9.6: Regression-adjusted earnings differentials ............................................................... 257
Table 9.7: Regional inequalities: Gross domestic product ....................................................... 258
Table 9.8: Commuting ............................................................................................................... 258
Table 10.1: Strikes ...................................................................................................................... 261
Table 10.2: National agreements on wage increase recommendations ........................................ 261
Table 10.3: Single employer collective agreements in the business sector ................................. 262
Table 10.4: Single institution collective agreements in the public sector .................................... 262
Table 10.5: Multi-employer collective agreements in the business sector ................................. 262
Table 10.6: Multi-institution collective agreements in the public sector ..................................... 262
Table 10.7: The number of firm wage agreements, the number of affected firms, and the number of employees covered ................................................................. 262
Table 10.8: The number of multi-employer wage agreements, the number
Table 11.4.a: Number of those receiving social annuities for people with damaged health, and the mean sum of the provisions they received after the increase, in January of the given year ........................................ 267
Table 11.4.b: Number of those receiving social annuities for people with damaged health, and the mean sum of the provisions they received after the increase, in January of the given year, from 2019 ........................................ 268
Table 11.5: The median age for retirement and the number of pensioners ........................................ 269
Table 11.6: The number of those receiving a disability annuity and the mean sum of the provisions they received after the increase, in January of the given year .................. 270
Table 11.7: Newly determined disability pension claims and detailed data on the number of newly determined old-age pension claims ... 270
Table 11.8: Retirement age threshold ........................................ 271
Table 12.1: The mean, minimum, and maximum value of the personal income tax rate, per cent ................... 272
Table 12.2: Changes in the magnitude of the tax wedge in the case of minimum wage and the temporary work booklet (AMK) .................. 273
Table 12.3: The monthly amount of the minimum wage, the guaranteed wage minimum, and the minimum pension, in thousands of current-year HUF ........................................ 274
Table 12.4: The tax burden on work as a ratio of tax revenue and earnings ........................................ 275
Table 13.1: Employment and unemployment rate of population aged 15–64 by gender in the EU ........ 276
Table 13.2: Employment composition of the countries in the EU ........................................ 277
Table 13.3: The ratio of unfilled vacancies to the sum of all (filled or unfilled) jobs., IV. quarter ........ 278

FIGURES

HUNGARIAN LABOUR MARKET
Figure 1: The number of persons employed and the employment rate of the age group 15–64 .................. 20
Figure 2: Number of job vacancies in the business sector .................. 24
Figure 3: The calculated rate of public workers aged 15–64 within the employed (percentage), 2016 .................. 26
Figure 4: The average length of job search (month, right axis) and the share of long-term jobseekers (percentage, left axis) .................. 27
Figure 5: Unemployment in the regions of Hungary, 2006–2016 .... 28
Figure 6: Evolution of unemployment and average search intensity .... 29
Figure 7: The evolution of per capita monthly gross earnings (thousand HUF) .............................. 31
Figure 8: The evolution of gross earnings and the minimum wage (2008 = 100 percent) .................. 33
Figure 9: The situation of counties in the context of the employment rate of the age group 15–64 and the gross salary 2016 .................. 37

IN FOCUS
Figure 1.1.1: Incidence of the phrases “labour shortage” and “skill shortage” on the Internet .................. 49
Figure 1.1.2: Two economies in the space of unemployment (U) and vacancies (V) .................. 52
Figure 1.1.3: Equilibrium in the UV space .................. 53
Figure 1.2.1: The number of articles containing “labour shortage” on the news portals index.hu, origo. hu, mno.hu and magyaridok.hu between 2010 and August .................. 58
Figure 1.3.1: Number of vacancies reported by the National Labour Office, 1990–2016 .................. 64
Figure 1.3.2: Vacancies as a percentage of total jobs according to the CSO survey 2006–2016 .................. 64
Figure 1.3.3: The proportion of vacancies according to Eurostat data in 12 countries, 2006–2016 .................. 64
Figure 1.3.4: The proportion of vacancies in the fourth quarter of 2016 according to Eurostat .................. 65
Figure 1.3.5: The proportion of vacancies in some sectors .................. 66
Figure 1.3.6: The proportion of businesses reporting labour and skilled worker shortage as an obstacle to business activity, 2000 – 2017 .... 67
Figure 1.3.7: The proportion of businesses reporting both labour and skilled worker shortage as an obstacle to business activity, 2011 – 2017 (percentage) .................. 68
Figure 1.3.8: The proportion of businesses reporting labour shortage as an obstacle to business activity broken down to economic sectors, in the EU and Hungary, 2007–2017 (percentage) .................. 69
Figure 1.3.9: The proportion of businesses reporting labour shortage as an obstacle to business activity broken down to economic sectors in Hungary, 2007–2017 .................. 69
Figure 1.3.10: The proportion of businesses in the EU member states finding it difficult to hire appropriately skilled employees, 2013 .... 70
Figure 1.3.11: The proportion of businesses reporting labour shortage broken down to level of experience of workers they find difficult to recruit, 2016 and 2017 (per cent) . 71
Figure A1.3: Vacancies in two sectors as a percentage of the total number of jobs, 2006–2016 .................. 72
Figure 1.4.1: Distribution of the 279 firms reporting shortage in the EBRD survey, according to how many skilled workers they lack to reach their planned headcount .... 74
Figure 1.5.1: Unemployment between 1992 and 2016 .................. 79
Figure 1.5.2: Movement of the Hungarian labour market in the space of vacancies and unemployment .... 79
Figure 1.5.3: Countries with improving matching .................. 81
Figure 1.5.4: Countries returning to matching similar to levels before the crisis .................. 82
Figure 1.5.5: Countries with declining matching .................. 83
Figure 2.1.1: The number of live births 1940–2016 .................. 84
Figure 2.1.2: Demographic replacement and the number of new entrants and outgoing workers in the active age population .................. 86
Figure 2.1.3: New entrants and outgoing workers broken down to educational attainment, 2001–2030 .... 87
Figure 2.1.4: The impact of changes in birth rates on demographic replacement broken down by educational attainment, 2001–2030 .... 89
Figure 2.3.1: The estimated number of Hungarian citizens working abroad in major host countries, 2006–2016 ......................... 96
Figure 2.3.2: Average annual exit, return and net labour migration rates, 2011–2016 ......................... 97
Figure 3.1.1: The distribution of respondents according to the situations in which their companies faced difficulties resulting from labour shortage in 2016 ....................... 110
Figure 3.2.1: The proportion of firms with persisting vacancies, 2013–2016 (percentage) .................. 114
Figure 3.2.2: The proportion of persisting vacancies relative to the statistical headcount, 2013–2016 (percentage) .................. 115
Figure 3.2.3: The incidence of idle capacity due to skilled and unskilled worker shortage and the level of idle capacity, 2013–2016 .................. 115
Figure 3.4.1: The impact of individual factors on the monthly gross wages, regression coefficients .......... 127
Figure 3.4.2: Sectoral wage advantages, 2002–2016 ............. 129
Figure 3.4.3: The effect of workforce composition on corporate average wage, regression coefficients .......... 130
Figure 4.1.1: The wage of VET graduates compared to the wage of VSS graduates by single years of age in 2016 ....................... 136
Figure 4.2.1: Predicted probabilities of expecting a STEM career. Logit models. The effect of gender and science achievement ..................... 144
Figure 4.2.2: The effects of parents’ occupation, subjective ICT competencies and instrumental motivations on boys’ and girls’ estimated probabilities of choosing a STEM career ................. 145
Figure 4.2.3: The effects of programme-orientation and share of girls in the school on boys’ and girls’ estimated probabilities of choosing a STEM career ................. 146
Figure 5.1.1: Changes in the nature of job tasks in the United States, 1980–2012 ....................... 151
Figure 5.2.1: The composition of entrants to newly created jobs broken down according to prior labour market status ...................... 159
Figure 5.2.2: The share of occupation changers among employees analysed according to the four-digit and two-digit HSCO classification and the aggregated occupational groups, Q2 1997 – Q1 2014 .................. 160
Figure 5.2.3: The proportion of public works participants among occupation changers with a lower secondary qualification at most .............. 161
Figure 5.4.1: Participation in labour market programs ............ 172
Figure 5.4.2: The distribution of training participants in terms of their educational attainment compared to their proportion within the unemployed .................. 172
Figure 5.4.3: The composition of participating job seekers according to their educational attainment .... 174
Figure 5.4.4: The effect of training on the probability of employment, by the year of training entry ............ 177
Figure 5.4.5: The effect of training on the probability of employment, by the length of training .................. 178

STATISTICAL DATA
